**MINUTES OF A MEETING OF THE
FINANCE COMMITTEE
OF THE DUPAGE WATER COMMISSION
HELD ON THURSDAY, JUNE 15, 2017
600 EAST BUTTERFIELD ROAD
ELMHURST, ILLINOIS**

The meeting was called to order at 5:51 P.M.

Committee members in attendance: R. Gans, J. Pruyn and J. Zay

Committee members absent: D. Russo and P. Sues

Non-Committee members in attendance: None

Also in attendance: Treasurer W. Fates, J. Spatz, and C. Peterson

Minutes

Chairman Zay moved to approve the Minutes of the Regular Committee Meeting of April 20, 2017 of the Finance Committee. Seconded by Commissioner Gans and unanimously approved by a Voice Vote.

All voted aye. Motion carried.

Approval of Reconciliations

Treasurer Fates reported that he had reviewed and approved the journal entries and bank reconciliations for the months of April and May 2017.

Discussion of the Request for Board Action: Transfer of Funds

General Manager Spatz noted that this transfer is to move money from the General Account to the Capital Reserve Account to cover the increase in the targeted amount due to the costs related to the Bartlett facilities.

Chairman Zay moved to recommend the transfer of funds from the General Account to the Capital Reserve Fund. Seconded by Commissioner Gans and unanimously approved by a Voice Vote.

All voted aye. Motion carried.

Discussion on Reserve Policy

General Manager Spatz discussed some proposed changes to the Reserve Policy including changing minimum days required in one reserve and deleting references to revenue bonds that are no longer outstanding. The Committee chose to review the proposed changes and bring the item up for discussion again in later meetings.

Other

General Manager Spatz noted that the Commission is still collecting sales tax revenues and discussed reviewing the ongoing collections with the Secretary of State's office. The Finance Committee agreed that discussions with the State should be initiated to verify collections. He also mentioned that the Commission's current auditors submitted a proposal for consideration to continuing serving as the Commission's auditors.

Chairman Zay and General Manager Spatz left the meeting at 6:04 P.M.

Treasurer's Report – April and May 2017

Treasurer Fates reviewed the written summary of the April Treasurer's Report. Cash and Investments totaled \$161.9M. He detailed the various account activities in the Commission's cash and investments over the past year months.

Market yield on the portfolio was at 1.23 basis points, a slight increase from the prior month. The portfolio was showing unrealized losses of \$537,000 compared to unrealized gains at the prior year end of approximately \$537,500.

Treasurer Fates reviewed the \$25.6M increase year-to-date on the Statement of Cash Flows. He added that this increase is due to the receipt of slightly over \$13M in deferred revenue related to the Village of Bartlett's cost recovery charges, it was offset by a \$13M cash outflow related to the loan to the Village of Bartlett to help finance the cost recovery charges. He stated that all targeted reserve levels were met or exceeded targets.

Treasurer Fates reviewed the written summary of the May Treasurer's Report. Cash and Investments totaled \$163.1M. He detailed the various account activities in the Commission's cash and investments over the first month of the fiscal year.

Market yield on the portfolio was at 1.24 basis points, a slight increase from the prior month. The portfolio was showing unrealized losses of \$389,566 compared to unrealized losses at the prior year end of approximately \$537,000.

Treasurer Fates reviewed the \$1.2M increase year-to-date on the Statement of Cash Flows. He stated that all targeted reserve levels were met or exceeded targets, except for the Capital Reserve. The Capital Reserve is expected to be fully funded within the next month upon approval from the Board to transfer the funds from the General Account.

Financial Statements – April and May 2017

Financial Administrator Peterson noted that for the year ended April 30, 2017, revenues exceeded expenses by approximately \$10.4M. Water sales and water purchases ended the year 2.6% and 1.5% above budgeted amounts, respectively.

Financial Administrator Peterson stated that cash and investment balances at the end of April exceeded liabilities or targets.

It was noted that cash balances were up compared to prior year by approximately \$26M. Receivables were flat versus the prior year. Year-end audit entries were discussed, including pension and OPEB accruals.

Financial Administrator Peterson noted that for the one month ended May 31, 2017, revenues exceeded expenses by approximately \$0.9M, primarily due to higher than budgeted investment income and timing of expenditures.

Water sales were above seasonal budgeted amounts by 0.1%. Water purchases were down 1.3% versus seasonal budgeted amounts.

Financial Administrator Peterson stated that total cash and investment balances at the end of May exceeded total liabilities or targets.

It was noted that cash balances were up compared to prior year by approximately \$22M. Receivables were slightly higher due to the increase in rates as of May 1, 2017, to \$4.88 per thousand gallons from \$4.80 per thousand gallons.

Audit Update

Financial Administrator Peterson stated that the audit is progressing on schedule and a draft version will be ready for the next Board meeting and the auditors, Sikich, will present at the August 2017 Board meeting.

Accounts Payable

Financial Administrator Peterson presented the Accounts Payable to the committee members. The numbers below were to be presented in the General Meeting.

April 12, 2017 to May 9, 2017	\$7,639,201.18
<u>Estimated</u>	<u>\$ 798,625.00</u>

INDEPENDENT AUDITOR'S REPORT

Members of the Board of Commissioners
DuPage Water Commission
Elmhurst, Illinois

We have audited the accompanying financial statements of the DuPage Water Commission (the Commission) as of and for the years ended April 30, 2017 and 2016, and the related notes to financial statements, which collectively comprise the Commission's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Commission's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the DuPage Water Commission, as of April 30, 2017 and 2016, and the respective changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Commission's basic financial statements. The introductory section, supplemental data, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplemental data is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental data is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

**GENERAL PURPOSE EXTERNAL
FINANCIAL STATEMENTS**

**DuPage Water Commission
Management's Discussion and Analysis**

OVERVIEW OF THE FINANCIAL STATEMENTS

This section of the DuPage Water Commission's annual financial report presents our discussion and analysis of the Commission's financial performance during the fiscal years ending April 30, 2017, 2016, and 2015.

This discussion and analysis is intended to serve as an introduction to the Commission's basic financial statements. The Commission's basic financial statements are comprised of the following components: Statement of Net Position, Statement of Revenues, Expenses and Changes in Net Position, Statement of Cash Flows and Notes to the Financial Statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

The Statement of Net Position presents information on all the Commission's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference between the four reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Commission is improving or deteriorating. The Statement of Revenues, Expenses and Changes in Net Position presents the information necessary to show how the Commission's net position changed during the fiscal years ending April 30, 2017 and 2016.

Both statements are presented using the accrual basis of accounting, which is similar to the accounting method used by most private-sector companies.

The Statement of Cash Flows provides information on the Commission's gross sources and uses of cash during the fiscal year.

The Notes to the Financial Statements generally provide more detailed information about the Commission's assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position and operations, as well as summarize the Commission's significant accounting policies.

FINANCIAL OPERATIONS SUMMARY

The Commission's net position rose by approximately \$10.4 million in fiscal year 2017. Revenues and contributions were \$130.3 million in fiscal 2017 compared to expenses totaling \$119.9 million. The Commission's revenues benefitted from greater than projected water sales and higher than budgeted investment income. Expenditures were lower than budgeted primarily due to increased energy cost savings and continued cost savings through improved efficiencies throughout the Commission. As of April 30, 2017, net investment in capital assets was \$343.3 million.

In fiscal year 2016, net position increased by \$44.8 million to \$494.1 million. Revenues of \$164.9 million were approximately 6.7% higher in fiscal year 2016 compared to the prior year. Expenses increased by approximately 7.6% to \$119.6 million compared to \$111.2 million in fiscal 2015. The Commission's revenues were above budgeted expectations primarily due to

higher than anticipated sales tax collections. Water sales were basically equal to budgeted amounts. Total operating expenditures continued to be below budgeted amounts due to lower than anticipated water purchases, additional energy cost savings, and sustained cost savings throughout the Commission. As of April 30, 2016, net investment in capital assets was \$347.8 million.

FINANCIAL ANALYSIS

Changes in Net Position. The table on page MD&A 3 presents information on the Commission's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference between the four reported as net position at April 30, 2017, 2016 and 2015. Net capital assets represent the total of assets capitalized less accumulated depreciation.

Fiscal Year 2017

The net position for the Commission increased by \$10.4 million to \$504.5 million in fiscal year 2017. Net capital assets decreased by \$4.5 million in fiscal year 2017 due to depreciation expense of \$8.4 million offset by investment in new construction and equipment of \$3.9 million.

Net investment in capital assets also declined by \$4.5 million from the prior year. This is due to the \$4.5 million decrease in capital assets mentioned above. The Commission repaid all of its loans at the end of fiscal year 2016.

Fiscal Year 2016

The Commission's net position at the end of fiscal year 2016 was \$494.1 million, which was an increase of \$44.8 million from the prior year end. Net capital assets decreased by \$3.4 million in fiscal year 2016 due to depreciation expense of \$8.1 million offset by investment in construction, vehicles and equipment of \$4.7 million.

Net investment in capital assets increased \$8.0 million from the prior year. This is due to the \$11.4 million decrease in debt used to finance capital assets offset by the \$3.4 million decrease in capital assets mentioned above. In the fiscal year 2016, principal debt repayments related to capital assets of \$11.9 million were partially offset by net amortization of premium and loss on refunding costs of \$0.5 million.

Revenues and Expenses. The table which follows presents a comparative summary of revenues, expenses and changes in net position for the years ended April 30, 2017, 2016 and 2015. The most significant source of revenues for the Commission continues to be from water sales.

Fiscal Year 2017

Water sales for fiscal year 2017 were 25.91 billion gallons versus 25.81 billion gallons last fiscal year. The charter customer operations and maintenance average water rate decreased from an average of \$4.85 per thousand gallons to an average of \$4.80 per thousand gallons for fiscal year 2017 due to a rate decrease of 1% in May 2016. Water revenue decreased in the current fiscal year by \$0.9 million or 0.7% because of the lower rates, which were partially offset by an increase in water sales of 0.4%. There were no major new customers.

The Commission's sales tax revenues decreased by \$33.0 million. As of June 1, 2016, the sales tax imposed was no longer imposed or collected.

Investment income decreased by nearly \$0.7 million from the prior year due to unrealized losses related to market values, partially offset by improved investment yield rates and higher investment balances. The Commission met all the targeted balances for its reserve funds.

Water distribution costs remain the highest expense in the Commission's operations. Water distribution costs increased \$0.5 million mainly due to the 0.6% increase in water purchases in fiscal 2017.

Fiscal Year 2016

In fiscal year 2016, water sales declined slightly to 25.81 billion gallons compared to 25.96 billion gallons in the prior fiscal year. The charter customer operations and maintenance average water rate increased from \$4.19 per thousand gallons to \$4.85 per thousand gallons for fiscal year 2016. Higher average water rates were the reason the Commission's water revenue increased by \$9.4 million or 8.1% compared to the prior year.

In January 2015, the operations and maintenance rate increased to \$4.68 per thousand gallons and the fixed cost equivalent was \$0.27 per thousand gallons for a total of \$4.95 per thousand gallons. On May 1, 2015, the total charter customer's water rate decreased from \$4.95 per thousand gallons to \$4.85 per thousand gallons, with operations and maintenance rate being \$4.85 per thousand gallons and the fixed cost equivalent reduced to \$0.00 per thousand gallons.

The Commission's sales tax revenues increased by \$0.5 million or 1.3% as the local economy continued to improve. In addition, \$11.1 million of sales tax funds were used to reduce the customers' fixed cost payments for fiscal year 2016 by 100%. This was the first year the customer's fixed costs payments were reduced to zero since the Commission started using sales tax to reduce fixed costs in fiscal year 1998.

Investment income increased \$0.5 million in part from the prior year due to higher unrealized gains in market values in the fiscal year. In addition, the Commission's yield on investments improved slightly and investment balances increased during the fiscal year. In fiscal year 2016, the Commission met or exceeded all the targeted minimum balances for its reserve funds.

The highest expense in the Commission's operations remains water distribution costs. The City of Chicago increasing their water rate charged to their customers in January 2015 was the main

driver of water distribution costs increasing by \$8.1 million (8.3%) in fiscal year 2016. Water purchases were down 0.6% compared to prior year purchases.

Debt Administration. The Commission completed repayment of the 2013 Revenue Bonds in April 2016. With the payment made in April 2016, the Commission no longer had any revenue bonds or certificates of debt outstanding. The Commission made no other material changes in structure or changed any ordinances in fiscal year 2016.

The Commission completed repayment of the \$40 million certificate of debt in October 2014. The Commission completed repayment of the \$30 million certificate of debt in June 2013.

Fiscal Year 2017

The Commission entered into no new debt certificates or issued new revenue bonds in fiscal year 2017.

No additional capital lease obligations were entered into during fiscal year 2017. The remaining principal value remaining on the capital lease was repaid in September 2016.

Fiscal Year 2016

The required revenue bond principal and interest payments were made monthly and on time during fiscal year 2016. As of April 30, 2016, remaining revenue bond principal outstanding was \$0.0 million due to the acceleration of the final payment originally due in May 2016 being paid in April 2016.

The principal value remaining on the capital lease set to expire in September 2016 was approximately \$3,240. In September 2011, the Commission entered into a capital lease obligation for office equipment which expires in five years. The value of the lease was approximately \$42,100. No additional capital lease obligations were entered into in fiscal 2016.

INVESTMENT PORTFOLIO

Fiscal Year 2017

The Commission's investment portfolio totaled \$143.7 million. At the end of the fiscal year, the portfolio was earning 1.23%. The benchmarks adopted by the Commission are based on the nature of the accounts and expected duration of the investments. The indices range from the 3 month U.S. Treasury Bill index to the 1-10 year U.S. Treasury Bill index.

Commission funds were invested as follows at April 30, 2017: United States agency investments (39%), United States treasury obligations (23%), money market funds (16%), commercial paper (11%), asset/mortgage backed securities (5%), municipal bonds (4%), and certificates of deposits (2%).

Fiscal Year 2016

The Commission's investment portfolio totaled \$130.6 million. At the end of the fiscal year, the overall portfolio was earning approximately 1.02%. The benchmarks adopted by the Commission are based on the nature of the accounts and expected duration of the investments. The indices range from the 3 month U.S. Treasury Bill index to the 1-10 year U.S. Treasury Bill index.

Commission funds were invested as follows at April 30, 2016: United States treasury obligations (34%), United States agency investments (28%), money market funds (13%), commercial paper (9%), certificates of deposits (6%), municipal bonds (5%), and asset/mortgage backed securities (5%).

OTHER FINANCIAL INFORMATION

In 2002, the Commission joined with the County of DuPage and the municipalities within the county to solve a water quality issue involving unincorporated areas not presently receiving a Lake Michigan water supply. As a wholesale distributor of Lake Michigan water, the Commission is not able to directly address this issue. However, the Commission agreed to make long-term, low-interest loans available to customer municipalities, retailers of Lake Michigan water, to extend their systems to serve county areas having water quality issues. The full extent of this contamination is unknown at this time. However, the Commission has committed to provide loans totaling not more than \$10 million toward mitigating the problem.

In total the Commission issued three loans for approximately \$5.6 million to charter customers during 2003-2007. Two of the loans were to be repaid in 13 installments, commencing in 2011 and continuing through 2023. Both of these loans have been paid in full. The third loan is to be repaid in 13 installments, commencing in 2014 and continuing through 2026. As of April 30, 2017 only \$0.4 million remained outstanding from the customers.

On February 7, 2017, the Commission entered into an Intergovernmental Agreement Concerning Loan for Capital Cost Recovery Charge to the Village of Bartlett and an Intergovernmental Agreement Concerning the Loan for Connection Facilities to Implement Water Service to the Village of Bartlett concurrent to entering into a Water Purchase and Sales Contract with the Village of Bartlett.

Upon becoming a member of the Commission and to comply with the Water Purchase and Sales Contract, the Village of Bartlett must pay its proportional share of costs for all of the property owned by the Commission (the "Capital Cost Recovery Charge") by February 24, 2024. The Village of Bartlett did not currently have, nor foresee having, the ability to pay for the Capital Cost Recovery Charge by February 24, 2024. Therefore, the Commission, based upon a previously enacted resolution that gave the Commission the ability to finance the Capital Cost Recovery Charge for potential subsequent customers, entered into the Intergovernmental Agreement Concerning Loan for Capital Cost Recovery Charge to the Village of Bartlett.

The Capital Cost Recovery Charge loan was in the amount of \$13,030,632 and was immediately returned as full payment of the Capital Cost Recovery Charge per the Water Purchase and Sale Contract between the Commission and the Village of Bartlett. The loan will be repaid over 360 monthly payments (30 years) at an interest rate of 0% beginning the month after the Village of Bartlett begins receiving water from the Commission.

NOTES TO FINANCIAL STATEMENTS

April 30, 2017 and 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The DuPage Water Commission (the Commission) is a county water commission, body politic and corporate, political subdivision and unit of local government, in DuPage County, Illinois, existing and operating under the Water Commission Act of 1985 (70 ILCS 3720), effective July 30, 1985, as amended (the 1985 Commission Act). The Commission declared the official start of operations on May 1, 1992.

The Board of Commissioners consists of 13 members. Seven of the Board members are appointed by the DuPage County Board Chairman with the advice and consent of the County Board. One of these appointees is designated as Chairman of the Commission and must be approved by the Board of Commissioners. The other six Board members are appointed by vote of the mayors of municipalities within the DuPage County districts.

The purpose and objectives of the Commission are:

- a. To provide water to municipalities and other customers within DuPage County.
- b. To plan, construct, acquire, develop, operate, maintain, and/or contract for facilities for receiving, storing, and transmitting water from Lake Michigan for the principal use and mutual benefit of the municipalities and other customers.
- c. To provide adequate supplies of such water on an economical and efficient basis for the municipalities and other customers.
- d. To provide a forum for discussion, study development, and implementation of recommendations of mutual interest regarding water distribution and supply facilities within DuPage County.

The primary authority to designate management, influence operations, formulate budgets, and set water rates rests with the Board of Commissioners. Significant matters that require Board action include setting water rates, borrowing funds, amending the Chicago Water Supply Contract or Commission by-laws, and employing the general manager, treasurer, financial administrator, and professional contractors. These significant matters must carry a majority vote of all commissioners, which majority must contain at least one-third of the DuPage County appointed Board members and 40% of the municipality appointed Board members.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The financial statements of the Commission have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to government units (hereinafter referred to as generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Commission's accounting policies are described below.

a. Reporting Entity

The Commission is considered to be a primary government pursuant to GASB Statement No. 14 since it is legally separate and fiscally independent. These financial statements include all functions, programs, and activities under the control of the Board of Commissioners.

b. Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net position. Proprietary fund operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in total net position.

The accrual basis of accounting is utilized by proprietary funds. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. Operating revenues/expenses include all revenues/expenses directly related to providing enterprise fund services. Non-operating revenues/expenses are incidental to the operation of the fund.

c. Fund Accounting

Enterprise Funds

Enterprise Funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the Commission is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the Commission has decided that periodic determination of revenues earned, expenses incurred, and net income or loss is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Cash and Cash Equivalents

For purposes of the statement of cash flows, the Commission's proprietary funds consider their demand deposits and all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

e. Investments

Investments with a maturity of one year or less when purchased are stated at cost or amortized cost. Investments and negotiable certificates of deposits with a maturity date greater than one year from the date of purchase are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

f. Accounts Receivable

Customer receivables are recorded as receivables and revenues at their original invoice amount. Management has determined no allowance for uncollectible accounts necessary as of April 30, 2017 and 2016. A receivable is considered to be past due if any portion of the receivable balance is outstanding for more than 40 days.

g. Prepaid Expenses

Payments made to vendors for services that will benefit periods beyond the date of this report, if any, are recorded as prepaid expenses.

h. Inventory

Inventories are accounted for at cost, using the first-in/first-out (FIFO) method.

i. Capital Assets - Property, Plant, and Equipment

Property, plant, and equipment are recorded at cost. If actual cost cannot be determined, estimated historical cost is used; donated capital assets are valued at acquisition value on the date donated. Capital assets are defined by the Commission as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Depreciation of property, plant, and equipment has been provided for over the estimated useful lives using the straight-line method.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i. Capital Assets - Property, Plant, and Equipment (Continued)

Estimated useful lives are as follows:

Water mains	80 years
Buildings and other structures	40 years
Pumping equipment	30 years
Office furniture and equipment	3 - 10 years
Vehicles and other equipment	5 - 25 years

Maintenance and repairs are charged to expense in the year incurred. Expenses that extend the useful life or increase productivity of property, plant, and equipment are capitalized. Interest incurred during the construction phase of capital assets is included as part of the capitalized value of the assets constructed.

j. Bond Discounts, Bond Premiums, and Losses on Refundings

Bond discounts, bond premiums, and losses on refundings are deferred and amortized over the term of the bonds using the bonds outstanding method, which approximates the effective interest method. Bond discounts and losses on refundings are presented as a reduction of the face amount of bonds payable; bond premiums are presented as an addition to the face amount of bonds payable. Bond issuance costs are expensed in the period incurred.

k. Compensated Absences

Employees earn vacation based on their anniversary date with the Commission. Earned vacation may be accumulated and is payable to the employee upon termination of employment and, therefore, is accrued through April 30. Accumulated sick leave is not reimbursable upon termination of employment and, therefore, is not accrued.

l. Unearned Revenue

Payments from member communities due in subsequent years and received in the current year are reported as unearned revenue.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

m. Net Position

Restricted net position represent amounts required to be segregated by bond ordinance provisions. None of the net position is restricted as a result of enabling legislation adopted by the Commission. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Net investment in capital assets represents the net book value of capital assets less long-term debt principal outstanding issued to construct or acquire capital assets.

n. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Commission does not have any deferred inflows of resources that meet this criteria.

o. Accounting Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. DEPOSITS AND INVESTMENTS

The Commission categorizes the fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

2. DEPOSITS AND INVESTMENTS (Continued)

The Commission’s investment policy limits investments of the Commission’s funds to the following: (a) direct or fully guaranteed obligations of the United States Government; (b) fully guaranteed obligations of certain U.S. federally chartered agencies; (c) interest-bearing demand or time deposits in banks and savings and loan associations; (d) short-term obligations of U.S. corporations with assets exceeding \$500,000,000 and with a rating of A1/P1; (e) money market mutual funds whose portfolio consists solely of U.S. Government obligations; (f) the Illinois Funds Investment Pool of the State of Illinois; (g) state and local obligations rated A-/A3; and (h) repurchase agreements.

It is the policy of the Commission to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the Commission and conforming to all state and local statutes governing the investment of public funds, using the “prudent person” standard for managing the overall portfolio. The primary objectives of the policy are, in order of priority, safety, liquidity, and rate of return.

a. Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the Commission’s deposits may not be returned to it. The Commission’s investment policy allows for the pledging of collateral for all bank balances in excess of federal depository insurance, with collateral held by a third party under a trust agreement or safekeeping agreement. The bank balance of cash and certificates of deposit was fully insured or collateralized at April 30, 2017 and 2016.

b. Investments

The following table presents the investments and maturities of the Commission’s debt securities as of April 30, 2017 and 2016:

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the Commission limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for short and long-term cash flow needs while providing a reasonable rate of return based on the current market. Investments cannot have a maturity greater than five years except commercial paper which is limited to 270 days and investments within the Long-Term Water Capital Reserve, which may have a maximum maturity of ten years provided that such investments have a maximum five-year weighted average maturity. For U.S. Government Agency Mortgage Backed Securities (MBS), the five-year maturity limit will be the weighted average life (WAL) calculation, rather than final maturity.

The Commission has the following recurring fair value measurements as of April 30, 2017. Recurring fair value measurements as of April 30, 2016 is not available. The U.S. Treasury notes are valued using IDSI Institutional Bond quotes (Level 1 inputs). The U.S. agency obligations are valued using IDSI Institutional Bond quotes (Level 2 inputs). Commercial paper are valued using Matrix pricing (Level 2 inputs). The municipal obligations are valued using Kenny Municipals (Level 2 inputs). The asset backed/mortgage backed securities are valued using IDSI MBS pricing and IDSI CMO pricing (Level 2 inputs).

Credit risk is the risk that the issuer of a debt security will not pay its par value upon maturity. The Commission limits its exposure to credit risk by primarily investing in U.S. Government obligations, municipal bonds rated at least A- by Standard and Poor's or A3 by Moody's at the time of purchase, and external investment pools. The money market fund and Illinois Funds are AAA rated. The commercial paper is rated A1 and the municipal bonds are rated A to AAA or are not rated. The U.S. Treasury notes and asset backed/mortgage backed securities are AA+ rated. The U.S. agency obligations are AAA rated. The municipal obligations are rated AA- through AAA.

2. DEPOSITS AND INVESTMENTS (Continued)

b. Investments (Continued)

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Commission will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the Commission's investment policy requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment (DVP) basis with the underlying investments held by an independent third-party custodian in the Commission's name and evidenced by safekeeping receipts. Money market funds are not subject to custodial credit risk.

Concentration of credit risk is the risk of loss due to a high percentage of the Commission's investments being invested with any one issuer. The Commission's investment policy places no limit on the amount the Commission may invest in any one issuer, except for commercial paper and obligations classified as supranational securities, which are limited to 5% of the total portfolio.

3. CHARTER CUSTOMER LOANS RECEIVABLE

On April 25, 2002, the Commission approved a motion for a proposed agreement to make long-term, low-interest loans available to Charter Customer municipalities for the purpose of providing financing under certain circumstances to future customers who presently live in areas of DuPage County not presently served by the Commission. The Commission had one loan outstanding as of and during the years ending April 30, 2017 and 2016. The loan is to be repaid in 13 installments, commencing in 2014 and continuing through 2026. Interest at a rate of 2% per annum shall be paid annually until the principal balance of the loan has been paid in full. As of April 30, 2017 and 2016, loans totaling \$441,394 and \$490,437, respectively, were due from the customer. These loans are reported as long-term loans receivable on the statement of net position.

5. WATER CONTRACT WITH THE CITY OF CHICAGO

The Commission has entered into a 40-year contract (from March 19, 1984) with the City of Chicago, Illinois (the Chicago Contract), under which the City of Chicago (the City) has agreed to supply all of the Commission's water requirements, up to 1.7 times the year's annual average day amount, with water of such quality as will meet or exceed applicable standards of the state and federal governments. The Chicago Contract provides that the cost of water to the Commission is furnished by the City through meters.

The Commission is obligated to purchase a minimum amount of water; such minimum is 50% of the aggregate Illinois Department of Natural Resources allocations. In fiscal 2017 and 2016, the Commission purchased 26.8 and 26.6 billion gallons of water, respectively, from the City, which equaled 72.8% and 72.9%, respectively, of the aggregate Illinois Department of Natural Resources allocations.

6. RISK MANAGEMENT

The Commission is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; natural disasters; injuries to and illnesses of the Commission's employees. These risks, along with medical claims for employees and retirees, are provided for through insurance purchased from private insurance companies.

There have been no reductions in the Commission's insurance coverage for any of its programs since the prior fiscal year. Settlements have not exceeded insurance coverage during the current year or prior three fiscal years.

b. Revenue Bonds

In February 2013, the Commission issued \$42,430,050 Revenue Refunding Bonds Series 2013. Principal was due in monthly installments of \$898,250 to \$3,580,000, interest at 0.98% through maturity at May 15, 2016. However, in April 2016, the final payment was accelerated and the Series 2013 bonds were redeemed and paid in full.

7. **LONG-TERM DEBT (Continued)**

c. Revenue Bond Ordinance

On December 18, 2012, the Commission adopted the Ordinance authorizing the issuance of Water Revenue Bonds, Series 2013, for the purpose of replacing the 1987 Ordinance and refunding the Water Revenue Bonds, Series 2003.

The Ordinance required the establishment various accounts within the Water Fund designated as Operation and Maintenance Account, Interest Account, Principal Account, Bank Obligation Account, and General Account.

Revenues held or collected from owners and operation of the system are deposited in the Water Fund. Monies deposited in the Water Fund are required to be transferred to the extent available within the following accounts of the Water Fund in the indicated order:

Operation and Maintenance Account - There shall be credited to the Operation and Maintenance Account an amount sufficient to pay operation and maintenance costs which shall not cause the balance in such account at any time to be greater than the Operation and Maintenance Maximum Amount.

Interest Account - There shall next be credited to the Interest Account and paid immediately to the Purchaser the then current interest due on the bonds plus, at the Commission's option, the interest due for the next following month. All moneys to the credit of said account shall be used solely to pay interest on outstanding bonds.

Principal Account - There shall next be credited to the Principal Account at the Commission's option, all or a portion of the principal due for the next following fiscal year. All moneys to the credit of the Principal Account shall be used solely to pay principal on outstanding bonds.

Bank Obligations Account - There shall next be credited to the Bank Obligations Account and paid immediately to the Purchaser any amounts due on bank obligations. All moneys to the credit of said account shall be used solely to pay amounts due on bank obligations.

General Account - All moneys remaining in the Water Fund after crediting the required amounts to the respective accounts hereinabove provided for and after making up any deficiency in any of said accounts, including for past due amounts that remain unpaid, shall be credited to the General Account.

All the accounts are held by the Commission.

8. CONTINGENCIES

Contingent Liabilities

The Commission has certain other contingent liabilities resulting from litigation, claims, and commitments incident to the ordinary course of business. It is expected that final resolution of such contingencies will not materially affect the financial position or changes in financial position of the Commission.

9. MAJOR CUSTOMER

During fiscal year 2017 and 2016, approximately 5.3 and 5.2 billion gallons, or 20.37% and 20.07%, respectively, of water sales revenue in the Water Fund were realized from the City of Naperville, the Commission's largest customer.

10. DEFINED BENEFIT PENSION PLAN

Illinois Municipal Retirement Fund

Plan Description

The Commission's defined benefit pension plan for regular employees provides retirement and disability benefits, postretirement increases, and death benefits to plan members and beneficiaries. The Commission's plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and supplementary information. That report may be obtained online at www.imrf.org.

Plan Administration

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members.

The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required. Benefits and refunds are recognized as an expense and liability when due and payable.

10. DEFINED BENEFIT PENSION PLAN (Continued)

Illinois Municipal Retirement Fund (Continued)

Plan Membership

At December 31, 2016, IMRF membership consisted of:

Inactive employees or their beneficiaries currently receiving benefits	8
Inactive employees entitled to but not yet receiving benefits	6
Active employees	<u>31</u>
 TOTAL	 <u><u>45</u></u>

Benefits Provided

IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with ten years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute.

Contributions

As set by statute, the Commission's regular plan members are required to contribute 4.50% of their annual covered salary. The statute requires the Commission to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The Commission's annual required contribution rate for calendar year 2016 was 10.90%. The Commission also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Illinois Municipal Retirement Fund (Continued)

Actuarial Assumptions

The Commission's net pension liability was measured as of December 31, 2016 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of the same date using the following actuarial methods and assumptions.

Actuarial valuation date	December 31, 2016
Actuarial cost method	Aggregate Entry-age normal
Assumptions	
Inflation	2.75%
Salary increases	3.75% to 14.50%
Interest rate	7.50%
Cost of living adjustments	3.00%
Asset valuation method	Market value

For nondisabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for nondisabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

10. DEFINED BENEFIT PENSION PLAN (Continued)

Illinois Municipal Retirement Fund (Continued)

Discount Rate

The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the Commission contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the IMRF's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the year ended April 30, 2017, the Commission recognized pension expense of \$375,422. At April 30, 2017, the Commission reported deferred outflows of resources and deferred inflows of resources related to IMRF from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 319,931	\$ -
Changes in assumption	-	-
Commission contributions subsequent to the measurement date	70,619	-
Net difference between projected and actual earnings on pension plan investments	611,782	-
TOTAL	<u>\$ 1,002,332</u>	<u>\$ -</u>

\$70,619 reported as deferred outflows of resources related to pensions resulting from Commission contributions subsequent to the measurement date will be recognized as a reduction of net pension liability in the reporting year ending April 30, 2018. Other amounts reported as deferred outflows of resources related to IMRF will be recognized in pension expense as follows:

<u>Year Ending April 30,</u>	
2018	\$ 245,234

Discount Rate Sensitivity

The following is a sensitivity analysis of the net pension liability (asset) to changes in the discount rate. The table below presents the net pension liability (asset) of the Commission calculated using the discount rate of 7.5% as well as what the Commission's net pension liability (asset) would be if it were calculated using a discount rate that is 1 percentage point lower (6.5%) or 1 percentage point higher (8.5%) than the current rate:

	1% Decrease (6.5%)	Current Discount Rate (7.5%)	1% Increase (8.5%)
Net pension liability (asset)	\$ 2,225,100	\$ 32,906	\$ (1,763,492)

11. OTHER POSTEMPLOYMENT BENEFITS

a. Plan Description

In addition to providing the pension benefits described, the Commission provides postemployment health care benefits (OPEB) for retired employees through a single-employer defined benefit plan (the Plan). The benefits, benefit levels, employee contributions, and employer contributions are governed by the Commission and can be amended by the Commission. Certain benefits are controlled by state laws and can only be changed by the Illinois Legislature. The Plan is not accounted for as a trust fund, as an irrevocable trust has not been established to account for the Plan. The Plan does not issue a separate report.

b. Benefits Provided

The Commission provides pre and post-Medicare postretirement health insurance to retirees, their spouses and dependents (enrolled at time of employee's retirement). To be eligible for benefits, the employee must qualify for retirement under one of the Commission's retirement plans. The retirees pay the blended premium. Upon a retiree becoming eligible for Medicare, the amount payable under the Commission's health plan will be reduced by the amount payable under Medicare for those expenses that are covered under both.

11. OTHER POSTEMPLOYMENT BENEFITS (Continued)

c. Membership

At April 30, 2016 (the most recent actuarial valuation) membership consisted of:

Retirees and dependents	2
Active fully eligible to retire	7
Active not yet fully eligible to retire	<u>24</u>
TOTAL	<u>33</u>
 Participating employers	 <u>1</u>

d. Funding Policy

The Commission is not required to and currently does not advance fund the cost of benefits that will become due and payable in the future. Active employees do not contribute to the Plan until retirement.

e. Annual OPEB Costs and Net OPEB Obligation

The Commission's annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation for 2017, 2016, and 2015 was as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
2015	\$ 8,272	77.00%	\$ 54,264
2016	24,397	51.00%	66,118
2017	25,438	58.00%	76,802

11. OTHER POSTEMPLOYMENT BENEFITS (Continued)

e. Annual OPEB Costs and Net OPEB Obligation (Continued)

The net OPEB obligation as of April 30, 2017 and 2016 was calculated as follows:

	2017	2016
Annual required contribution	\$ 24,997	\$ 24,036
Interest on net OPEB obligation	2,645	2,171
Adjustment to annual required contribution	(2,204)	(1,809)
Annual OPEB cost	25,438	24,397
Contributions made	14,754	12,543
Increase in net OPEB obligation	10,684	11,854
Net OPEB obligation, beginning of year	66,118	54,264
NET OPEB OBLIGATION, END OF YEAR	\$ 76,802	\$ 66,118

Funded Status and Funding Progress: The funded status of the Plan as of April 30, 2016 was as follows:

Actuarial accrued liability (AAL)	\$ 256,153
Actuarial value of plan assets	-
Unfunded actuarial accrued liability (UAAL)	256,153
Funded ratio (actuarial value of plan assets/AAL)	0.00%
Covered payroll (active plan members)	\$ 2,604,921
UAAL as a percentage of covered payroll	9.80%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the Plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to financial statements, presents multi-year trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

11. OTHER POSTEMPLOYMENT BENEFITS (Continued)

e. Annual OPEB Costs and Net OPEB Obligation (Continued)

Actuarial methods and assumptions - projections of benefits for financial reporting purposes are based on the substantive plan (the Plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the April 30, 2016 actuarial valuation, the entry-age normal actuarial cost method was used. The actuarial assumptions included an investment rate of return of 4.0% and an initial healthcare cost trend rate of 7.8% with an ultimate healthcare inflation rate of 5.0%. Both rates include a 3.0% inflation assumption and 4.0% wage inflation assumption. The actuarial value of assets was not determined as the Commission has not advance funded its obligation. The Plan's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at April 30, 2016 was 30 years.

12. CUSTOMER PREPAYMENTS AND NON-CHARTER CUSTOMERS LOANS RECEIVABLE

Payments from non-Charter Customers for customer differential revenues are reported as unearned revenues. These unearned revenues will be amortized on a straight-line basis through April 30, 2024. Customer differentials represent payments for connecting to the Commission's system as well as fixed costs charged to subsequent customers to cover costs which would have been paid by subsequent customers if they had been Charter Customers.

On February 7, 2017, the Commission entered into an Intergovernmental Agreement Concerning Loan for Capital Cost Recovery Charge to the Village of Bartlett (the Village) and an Intergovernmental Agreement Concerning the Loan for Connection Facilities to Implement Water Service to the Village concurrent to entering into a Water Purchase and Sales Contract with the Village.

Upon becoming a member of the Commission and to comply with the Water Purchase and Sales Contract, the Village must pay its proportional share of costs for all of the property owned by the Commission (the "Capital Cost Recovery Charge") by February 24, 2024. The Village did not currently have, nor foresee having, the ability to pay for the Capital Cost Recovery Charge by February 24, 2024. Therefore, the Commission, based upon a previously enacted resolution that gave the Commission the ability to finance the Capital Cost Recovery Charge for potential subsequent customers, entered into the Intergovernmental Agreement Concerning Loan for Capital Cost Recovery Charge to the Village.

12. CUSTOMER PREPAYMENTS AND NON-CHARTER CUSTOMERS LOANS RECEIVABLE (Continued)

The Capital Cost Recovery Charge loan was in the amount of \$13,030,632 and was immediately returned as full payment of the Capital Cost Recovery Charge per the Water Purchase and Sale Contract between the Commission and the Village. The loan will be repaid over 360 monthly payments (30 years) at an interest rate of 0% beginning the month after the Village begins receiving water from the Commission. This loan are reported as long-term loans receivable on the statement of net position.

The Commission, based upon a previously enacted resolution that gave the Commission the ability to finance the Connection Facilities Cost for potential subsequent customers, entered into the Intergovernmental Agreement Concerning Loan for Connection Facilities to Implement Water Service to the Village. The Connection Facilities loan amount will be capped at \$21,000,000. The Commission would draw money from this amount as needed to complete the construction of all charges related to the completion of the connection facilities needed to supply water to the Village. As of April 30, 2017, no money had been drawn on this loan.

The loan will be repaid over 240 monthly payments (20 years) at an interest rate of the lower of the highest monthly average yield to maturity interest rate earned by the Commission (total all funds) as reported monthly on the Commission's Schedule of Investments for the immediately preceding fiscal year (May 1 - April 30) as determined by the Commission plus one percent (1%) or four percent (4%) per annum. Interest will begin to be charged as withdrawals from the loan are needed. Interest will be capitalized on a monthly basis until the Village begins making payments on this loan. The Commission's highest monthly average yield in fiscal year 2016-2017 was 1.23%.

Loan payments will begin on the earlier of the first month after the Village begins taking water from the Commission or January 10, 2020.

13. SALES TAX

As of June 1, 2016, the sales tax imposed was no longer imposed or collected. There was no referendum introduced for a continuation of the tax to be approved by the voters.

14. CHANGE IN ACCOUNTING PRINCIPLE

The Commission recorded the following change in accounting principle during the year ended April 30, 2016:

	<u>Increase (Decrease)</u>
CHANGE IN ACCOUNTING PRINCIPLE - BUSINESS-TYPE ACTIVITIES	
To record the IMRF net pension liability in accordance with the implementation of GASB Statement No. 68.	<u>\$ 535,563</u>
TOTAL CHANGE IN ACCOUNTING PRINCIPLE - BUSINESS-TYPE ACTIVITIES	<u>\$ 535,563</u>

With the implementation of GASB Statement No. 68, the Commission was required to retroactively record the net pension liability and deferred outflows of resources.

DUPAGE WATER COMMISSION INTEROFFICE MEMORANDUM

TO: Chairman and Commissioners
FROM: Bill Fates, Treasurer
DATE: July 11, 2017
SUBJECT: TREASURER'S REPORT – June 30, 2017

I am pleased to report that I have reviewed and approved all journal entries and bank reconciliations for the month of June. I have also reviewed the monthly financial statements and budget status reports, and found them to be in order.

Summary of Cash & Investments (Page 4)

1. Cash and investments totaled \$164.9 million at June 30th, an increase of \$1.8 million compared to the previous month.
2. The balance in the BMO Harris checking account was \$18.3 million at June 30th, an increase of approximately \$1.7 million compared to the \$16.6 million reported last month.
3. The BMO Harris money market accounts had \$12.1 million at month-end, a slight increase over the prior month balance due to interest earned.
4. During the month of June, the IIIT money market accounts decreased by approximately \$14.0 million from the prior month. The Commission transferred \$21.3 million of investments from the General Account to the Capital Reserve account in June.
5. In June, our holdings of U.S. Treasury increased by \$23.2 million, and Commercial Paper and U.S. Agency investments decreased by approximately \$5.0 million and \$3.8 million, respectively.
6. The current holdings of cash and investments are in compliance with the approved investment policy.
7. For the two months ended June 30, 2017, the Commission's cash and investments increased a total of \$2.9 million.
 - The Operating & Maintenance Account decreased by \$2.3 million, for an ending balance of \$30.4 million.
 - The General Account decreased by \$16.3 million, for an ending balance of \$3.5 million. The Commission transferred \$21.3 million of investments from the General Account to the Capital Reserve account in June.
 - The Sales Tax Account remained unchanged at \$275.
 - The Capital Reserve Fund increased \$21.3 for a balance of \$51.2 million.

- The Operating Reserve Account increased \$182,236 for a balance of \$67.4 million.
- The Long-Term Capital Reserve Account increased by \$45,702 for a balance of \$12.5 million.

The following table presents a summary of the changes in cash position by account.

Cash and Investments by Account

Account	Balance 4/30/2017	Balance 6/30/2017	Increase (Decrease)
Operations & Maintenance	\$32,727,195	\$30,386,827	\$(2,340,368)

Total Cash & Investments	\$161,935,569	\$164,868,236	\$2,932,667

Schedule of Investments (Pages 5-10)

1. The average yield to maturity on the Commission's investments was 1.33%, an increase of 9bps from the prior month average yield to maturity of 1.24%.
2. The portfolio is showing estimated unrealized losses of \$644,700 at June 30, 2017, compared to \$541,239 in unrealized losses at April 30, 2017.
3. The amortized cost of our investments was \$146.5 million at June 30th, unchanged from the previous month.

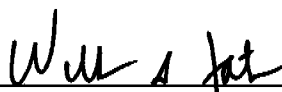

Statement of Cash Flows (Page 11)

1. The statement of cash flows shows a breakdown of the \$2.9 million increase in cash and investments for the fiscal year.
2. Operating activities increased cash by \$2.9 million.
3. Approximately \$207,000 of sales tax revenue was received.
4. Capital Assets purchased were about \$336,000 year-to-date.
5. Cash flow from investment activity generated \$260,000.

Reserve Analysis (Page 12)

1. The reserve analysis report shows the commission has met or exceeded all recommended reserve balances at June 30th.
2. The Operating and Maintenance Account was \$30.4 million which is a balance currently sufficient enough to cover an estimated 85 days of normal operation and maintenance costs.
3. The Operating Reserve account was \$67.4 million which is approximately 189 days, this amount meets the minimum balance per the reserve policy.

Respectfully submitted,

Bill Fates, CPA
Treasurer

DUPAGE WATER COMMISSION INTEROFFICE MEMORANDUM

TO: Chairman and Commissioners
FROM: Bill Fates, Treasurer
DATE: August 8, 2017
SUBJECT: TREASURER'S REPORT – July 31, 2017

I am pleased to report that I have reviewed and approved all journal entries and bank reconciliations for the month of July. I have also reviewed the monthly financial statements and budget status reports, and found them to be in order.

Summary of Cash & Investments (Page 4)

1. Cash and investments totaled \$165.8 million at July 31st, an increase of \$0.9 million compared to the previous month.
2. The balance in the BMO Harris checking account was \$19.1 million at July 31st, an increase of approximately \$0.8 million compared to the \$18.3 million reported last month.
3. The BMO Harris money market accounts had \$12.1 million at month-end, relatively unchanged from the prior month balance.
4. During the month of July, the IIT money market accounts increased by approximately \$2.4 million from the prior month.
5. In July, our holdings of U.S. Agency increased by \$5.8 million, and Commercial Paper and U.S. Treasury investments decreased by approximately \$2.1 million and \$5.8 million, respectively.
6. The current holdings of cash and investments are in compliance with the approved investment policy.
7. For the three months ended July 31, 2017, the Commission's cash and investments increased a total of \$3.9 million.
 - The Operating & Maintenance Account decreased by \$1.5 million, for an ending balance of \$31.2 million.
 - The General Account decreased by \$16.3 million, for an ending balance of \$3.5 million. The Commission transferred \$21.3 million of investments from the General Account to the Capital Reserve account in June.
 - The Sales Tax Account remained unchanged at \$275.
 - The Capital Reserve Fund increased \$21.4 for a balance of \$51.2 million.
 - The Operating Reserve Account increased \$216,254 for a balance of \$67.4 million.

- The Long-Term Capital Reserve Account increased by \$52,044 for a balance of \$12.5 million.

The following table presents a summary of the changes in cash position by account.

Cash and Investments by Account

Account	Balance 4/30/2017	Balance 7/31/2017	Increase (Decrease)

Total Cash & Investments	\$161,935,569	\$165,799,391	\$3,863,822

Schedule of Investments (Pages 5-10)

1. The average yield to maturity on the Commission's investments was 1.36%, an increase from the prior month average yield to maturity of 1.33%.
2. The portfolio is showing estimated unrealized losses of \$453,100 at July 31, 2017, compared to \$541,239 in unrealized losses at April 30, 2017.
3. The amortized cost of our investments was \$146.7 million at July 31st, up slightly from the previous month due to interest earned.

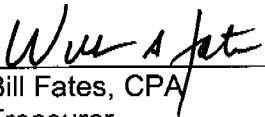

Statement of Cash Flows (Page 11)

1. The statement of cash flows shows a breakdown of the \$3.9 million increase in cash and investments for the fiscal year.
2. Operating activities increased cash by \$3.8 million.
3. Approximately \$217,000 of sales tax revenue was received.
4. Capital Assets purchased were about \$392,000 year-to-date.
5. Cash flow from investment activity generated \$390,000.

Reserve Analysis (Page 12)

1. The reserve analysis report shows the commission has met or exceeded all recommended reserve balances at July 31st.
2. The Operating and Maintenance Account was \$31.2 million which is a balance currently sufficient enough to cover an estimated 88 days of normal operation and maintenance costs.
3. The Operating Reserve account was \$67.4 million which is approximately 189 days, this amount meets the minimum balance per the reserve policy.

Respectfully submitted,

Bill Fates, CPA
Treasurer

DuPage Water Commission

MEMORANDUM

TO: John Spatz, General Manager
FROM: Cheryl Peterson, Financial Administrator *CP*
DATE: July 11, 2017
SUBJECT: Financial Report – June 30, 2017

- Water sales to Commission customers for June 2017 were 118.6 million gallons (4.8%) above June 2016, and increased by 432.3 million gallons compared to May 2017. Year-to-date water sales were down by 9.1 million gallons or 0.2% compared to the prior fiscal year.
- Water sales to Commission customers for June were 212.8 million gallons (9.0%) higher than the budgeted anticipated/forecasted sales for the month. Year-to-date water sales were 215.6 million gallons (4.8%) above the budgeted anticipated/forecasted sales.
- For the month of June, water billings to customers for O&M costs were \$12.6 million and water purchases from the City of Chicago was \$10.3 million. Water billing receivables at June month end (\$14.5 million) increased compared to the prior month (\$13.3 million) primarily due to higher water sales.
- The Commission is two months or 16% into the fiscal year. As of June 30, 2017, \$23.6 million of the \$122.0 million revenue budget has been realized. Therefore, 19% of the revenue budget has been accounted for year to date. For the same period, \$21.8 million of the \$121.7 million expenditure budget has been realized, and this accounts for 18% of the expenditure budget.
- Adjusted for seasonality based on a monthly trend, year to date revenues are 107% percent of the current budget and expenses are 100% of the current budget.
- The Operating Reserve and Long Term Water Capital Accounts had reached or exceeded their respective 2017/2018 fiscal year end minimum targeted levels. The O&M and General Account have balances of \$30.4 million and \$3.5 million, respectively.

DuPage Water Commission

MEMORANDUM

TO: John Spatz, General Manager
FROM: Cheryl Peterson, Financial Administrator *CP*
DATE: August 8, 2017
SUBJECT: Financial Report – July 31, 2017

- Water sales to Commission customers for July 2017 were 75.2 million gallons (2.8%) below July 2016, and decreased by 6.5 million gallons compared to June 2017. Year-to-date water sales were down by 84.3 million gallons or 1.1% compared to the prior fiscal year.
- Water sales to Commission customers for July were 77.8 million gallons (2.9%) lower than the budgeted anticipated/forecasted sales for the month. Year-to-date water sales were 137.8 million gallons (1.9%) above the budgeted anticipated/forecasted sales.
- For the month of July, water billings to customers for O&M costs were \$12.5 million and water purchases from the City of Chicago was \$10.3 million. Water billing receivables at July month end (\$15.0 million) increased compared to the prior month (\$14.5 million) primarily due to timing of collections.
- The Commission is three months or 24% into the fiscal year. As of July 31, 2017, \$36.4 million of the \$122.0 million revenue budget has been realized. Therefore, 30% of the revenue budget has been accounted for year to date. For the same period, \$33.5 million of the \$121.7 million expenditure budget has been realized, and this accounts for 28% of the expenditure budget.
- Adjusted for seasonality based on a monthly trend, year to date revenues are 103% percent of the current budget and expenses are 97% of the current budget.
- The Operating Reserve and Long Term Water Capital Accounts had reached or exceeded their respective 2017/2018 fiscal year end minimum targeted levels. The O&M and General Account have balances of \$31.2 million and \$3.5 million, respectively.
