AGENDA ENGINEERING & CONSTRUCTION COMMITTEE THURSDAY, SEPTEMBER 15, 2011 6:30 P.M. <u>COMMITTEE MEMBERS</u> D. Loftus, Chair R. Furstenau F. Saverino M. Scheck

#### 600 EAST BUTTERFIELD ROAD ELMHURST, IL 60126

- I. Roll Call
- II. Approval of Committee Meeting Minutes of July 21, 2011

**RECOMMENDED MOTION:** To approve the Minutes of the July 21, 2011 Engineering & Construction Committee Meeting of the DuPage Water Commission.

- III. Report of Status of Construction/Operations
- IV. R-39-11—A Resolution Approving and Ratifying Certain Task Orders Under a Master Contract with EN Engineering, LLC at the September 15, 2011, DuPage Water Commission Meeting
- V. R-40-11—A Resolution Approving and Authorizing the Execution of a Contract for Consulting Services for Design and Construction of a Joint Connection Facility
- VI. Discussion Items
- VII. Other
- VIII. Adjournment

H:\Board\Agendas\Engineering\2011\09.docx

All visitors must present a valid drivers license or other government-issued photo identification, sign in at the reception area and wear a visitor badge while at the DuPage Pumping Station.

#### MINUTES OF A MEETING OF THE ENGINEERING & CONSTRUCTION COMMITTEE OF THE DUPAGE WATER COMMISSION HELD ON THURSDAY, JULY 21, 2011 600 EAST BUTTERFIELD ROAD ELMHURST, ILLINOIS

The meeting was called to order at 6:30 P.M.

Committee members in attendance: D. Loftus, R. Furstenau, F. Saverino, and M. Scheck

Also in attendance: R. C. Bostick, F. Frelka, E. Kazmierczak, J. Schori. And M. Weed.

<u>Commissioner Saverino moved to approve the Minutes of the June 23, 2011</u> <u>Engineering Committee</u>. Motion seconded by Commissioner Furstenau and passed unanimously as follows:

Ayes:D. Loftus, R. Furstenau, F. Saverino and M. ScheckNays:NoneAbsent:None

Facilities Construction Supervisor / Safety Coordinator Bostick provided an oral report highlighting the Status of Operations report;

Regarding Contract PSD-7 DPPS Electrical Generation, the Committee was briefed on the completion of medium voltage equipment acceptance testing, operations & maintenance training and commissioning activities. The Committee was also briefed on the status of the 3<sup>rd</sup> part evaluation of noted potential engineering deficiencies in the generation facilities under construction.

Regarding the Generator Supply Contract, the Committee was advised the fuel system modifications and the testing of the portable generator is complete at both sites.

Regarding Contract PSC-4 Lexington Generation Facilities, the Committee was briefed that the project is complete and final billing is anticipated at the August DWC meeting.

Regarding Contract PSC-5 Lexington Photovoltaic Facilities, the Committee was briefed that the project is complete with the exception of going live with the web page on the Commission's website and also final billing is anticipated at the August DWC meeting.

Commissioner Saverino inquired as to the ability of start-up of the DuPage generation facilities should a failure of electric utility supply occur as has been occurring in the area since the last storm event. Facilities Construction Supervisor Bostick indicated that DWC has not lost utility power, other than perhaps momentarily and the generators are capable of starting automatically should a failure occur. Commissioner Furstenau inquired as to the impact to DWC customers in the event of loss of power and pumps. Facilities Construction Supervisor Bostick advised that in a loss of pumping, some customers may be impacted immediately depending on the Commission's hydraulic grade line, or simply the water level in our standpipes. However, Facilities Construction Supervisor Bostick also advised the Committee that, the Customers are to have two (2) days average of water storage in their systems for these types of events.

Regarding the DuPage County Steeple Run Service Area, Staff advised the Committee that with last month's approval of the intergovernmental agreement to design and construct the joint facility, Staff has commenced negotiations with an engineering firm. Staff advised that the proposed engineering costs and scope has been forwarded onto DuPage County for their advice and consent. Upon receiving the County's consent, Staff will commence on negotiating the legal terms of the agreement. Chairman Loftus reiterated his previous thoughts where he would like to meet with Staff to discuss modification of the Commission's standard contract terms in hope of attracting a broader range of professional services providers which are technically qualified of performing services for the Commission.

Commissioner Furstenau inquired as to the completeness of routine monthly inspections and maintenance at remote facilities. Commissioner Furstenau inquired as to whether or not a system is in place to measure if maintenance work is being done and on time. Instrumentation/Remote Facilities Supervisor Schori indicated that the Infor system is in place which automatically schedules and tracks maintenance activities. Instrumentation/Remote Facilities Supervisor Schori also indicated that he has an employee out on disability where the critical maintenance needs are being met however some lesser maintenance functions are slipping due to lack of available manpower.

Regarding Corrosion control on the Outer Belt Transmission Main (TOB-7/11), Pipeline Supervisor Kazmierczak advised that the design is ongoing however delays continue due to Commonwealth Edison being non-responsive to engineering requests. Commissioner Furstenau asked staff to summarize the importance of corrosion control projects. Pipeline Supervisor Kazmierczak advised that it is difficult to qualify or quantify the importance however maintaining the integrity of the pipe is the mission, and mitigation of corrosion is a key to maintaining that integrity. Pipeline Supervisor Kazmierczak also advised that the corrosion control work itself is perpetual where monitoring of installed facilities is cyclical.

- IV. R-33-11 A Resolution Approving and Ratifying Certain Contract PSC-4/08 Change Orders at the July 21, 2011, DuPage Water Commission Meeting.
- V. Purchase Order No. 12956 to HD Supply Waterworks in the amount of \$42,715.60.

Staff advised that Change Order No. 9 for PSC-4/08 appears on the agenda as R-33-11. This is a no cost change order to extend the completion date of the PSC-4 Contract to coincide with the completion of the work involved with the portable generator fuel systems modifications necessary to operate in an environmentally safe manner at the Lexington Pumping Station.

Staff advised that Purchase Order No.12956 would enable Staff to warehouse sufficient parts to extend the life expectancy of the Commission's soon to be discontinued 6" turbine meters up to 25 years. Staff advised that the purchase of the additional parts is far more efficient and cost effective rather than replacing the meters outright and then warehousing a multitude of parts for any new meter line.

Commissioner Furstenau moved to adopt item numbers IV and V under the Engineering & Construction Committee Agenda in a single group pursuant to the Omnibus Vote Procedures Motion seconded by Commissioner Scheck and passed unanimously as follows:

Ayes:D. Loftus, R. Furstenau, F. Saverino and M. ScheckNays:NoneAbsent:None

<u>Commissioner Furstenau moved to adjourn the meeting at 6:55 P.M.</u> Motion seconded by Commissioner Saverino and passed unanimously as follows:

Ayes:D. Loftus, R. Furstenau, F. Saverino and M. ScheckNays:NoneAbsent:None

# DuPage Water Commission

- TO: John Spatz General Manager
- FROM: Terry McGhee Manager of Water Operations

Ed KazmierczakPipeline SupervisorChris BostickFacilities Construction SupervisorJohn SchoriInstrumentation SupervisorFrank FrelkaGIS CoordinatorMike WeedOperations Supervisor

- DATE: September 8, 2011
- SUBJECT: Status of Operations

#### **Operations Overview**

The Commission's sales for the month of August were a total of 2.741 billion gallons. This represents an average day demand of 88.4 million gallons per day (MGD), which is lower than the August 2010 average day demand of 92.4 MGD. The maximum day demand was 99.4 MGD on August 19, 2011, which is lower than the August 2010 maximum day demand of 107.1 MGD. The minimum day flow was 79.8 MGD. The Commission's recorded total precipitation for the month of August was 4.54 inches compared to 1.80 inches for August 2010. The level of Lake Michigan for August 2011 is 578.21 (Feet IGLD 1985) compared to 578.22 (Feet IGLD 1985) for August of 2010.

#### Water Conservation

The Commission is sponsoring a high school and college video contest on water conservation. Winning film(s) will be featured on dpwc.org and preservingeverydrop.org. Winner(s) will also receive a trophy and be eligible for prizes from participating partners.

#### **Document Management**

Staff is in the process of moving documents into the databases on the Document Management System. Staff's goal is to move all documents to the Document Management System by November. The Commission's new leased copiers/printers have been outfitted with software that will allow employees to directly scan into the Document Management System.

#### Facilities Construction Overview

#### Contract PSD-7 DPPS Electrical Generation

Staff continues meeting with the design engineer to discuss outstanding design issues.

#### Contract PSC-5 Lexington Photovoltaic Cells

Tank Industry Consultants will perform post construction inspection of the interior surfaces of the Lexington concrete reservoirs in later half of September. The photovoltaic system was installed on top of the reservoir.

#### DuPage County Service Areas

R-40-11 appears on the agenda to enter into an agreement with AECOM to provide professional services for the design and construction of the Steeple Run Service Area joint connection facilities. DuPage County has posted a deposit to cover 100% of all related costs.

We are reviewing a proposed DPC special service area connection to existing facilities.

#### Instrumentation / Remote Facilities Overview

#### Annual Customer Meter Calibration Program

Maintenance and calibration of the test bench is complete. The program is scheduled to begin the third week of September.

#### **Remote Facilities Maintenance**

The annual tank site inspection and calibrations are complete. The annual remotely operated valve inspections and calibrations have begun.

#### Contract QRE-5/10 (Quick Response Electrical Contract)

Work Authorization Order # QRE-5.002 to repair the electrical service entrances at various meter stations is scheduled with ComEd for early September.

## <u>GIS</u>

### Infor EAM

The Infor EAM upgrade project is set for the first week of October with training on new functionality and system administration scheduled for the following week. A new server was purchased that will be used for all the Infor system components. The final portion of the upgrade project will consist of migrating all data to the production server will take place the first week of November.

Staff continues to look at integrating Infor EAM with the Incode financial accounting system.

#### ArcGIS Server Web Site

The GIS Coordinator has resumed work on developing a new GIS web site using ArcGIS Server version 10.

#### Paperless Agenda Project

Work continues on this project.

## Pipeline Construction Overview

#### Contracts TOB-7/11 and TS-8

Work continues on project design and contract specifications for the Outer Belt Transmission Main Corrosion Mitigation Contract and the South Transmission Main Corrosion Mitigation Project (EN Engineering Task Order Nos. 13 and 6).

#### Contract VSR-1/11(Valve Stem Replacement)

Staff is looking into the possibility of performing a majority of this work in-house rather than advertising for contractor installation services as was originally budgeted. A preliminary cost comparison suggests that the Commission may be able to realize a significant costs savings utilizing in-house labor and revising certain materials and assembly techniques. To that end, prototype valve stem risers are in the process of being assembled and installed and, once completed, will give us a better idea on potential cost savings.

#### Contract QR-9 (Quick Response Contract)

Work Authorization No. 1 to Contract QR-9 (blow off valve adjustment and pavement repair on Swift Road in the City of Addison) has been completed.

#### <u>Other</u>

Annual valve exercising is in progress and is expected to be completed by the end of November.

### SEPTEMBER 2011 COMMISSION AGENDA ITEMS:

**R-39-11**---A Resolution Approving and Ratifying Certain Task Orders Under a Master Contract with EN Engineering, LLC at the September 15, 2011, DuPage Water Commission Meeting

**R-40-11**---A Resolution Approving and Authorizing the Execution of a Contract for Consulting Services for Design and Construction of a Joint Connection Facility at the September 15, 2011, DuPage Water Commission Meeting
