REQUEST FOR BOARD ACTION

Date: 4/13/2023

Description: **A Resolution Suspending the Purchasing Procedures and Authorizing the Execution of a Consulting Agreement with IT Savvy LLC for IT Cyber Security Services**

Agenda Section: Administration Committee

Originating Department: Information Technology

Account Number: 01-60-629000 (\$123,293.64)

Resolution No. R-16-23 would approve a Consulting and Network Cyber Security Services Agreement with IT Savvy LLC in connection with the Commission's Administrative and SCADA Networks for a twelve-month term.

The Commission relies heavily on the Administrative and SCADA Networks to perform the critical daily operating tasks of the Commission. Cybercrime is considered the most prolific threat to all types of public utilities. Historically, the commission used various IT security solutions to address basic network security.

The Commission's position for Cyber or IT Security is to be at the forefront to protect our network systems; therefore, the Commission implemented FireEye Enterprise Network Security in 2018, which has proven to be a vital tool in securing our networks. It continues blocking malicious foreign attacks on our system, protecting us from malware to ransomware and continuously safeguarding our endpoint users.

The Commission uses ITSavvy for IT and network support. ITSavvy represents FireEye, one of the leading IT Security Firms in the country. The Commission currently uses two of FireEye's basic services to protect email and user endpoints. With the escalation of cyber-attacks within the government and critical infrastructures, the Commission has enhanced its IT security with FireEye's Managed Defense service that provides round-the-clock vigilance, investigation, and mitigation solutions to any type of security breach.

The FireEye Enterprise Network Security solution enables rapid detection and response to evasive threats missed by traditional defenses, across network/web, email, and file systems. The FireEye Managed Defense service is broken down into three cost elements: the NX appliance licensing and bandwidth capacity, the annual cost for the managed defense team coverage and support, and the quantity-based node coverage for our network appliances and end-user systems. This year's renewal of the managed defense service comes to \$123,293.64 compared to last year's service agreement, which reached \$141,672.85. There were no significant modifications to the services in this cost change, just an adjustment to the appliance licensing and bandwidth capacity. Our network did not require as high bandwidth usage as it did in previous years, so the quantity was reduced while still maintaining the potential for an increase.

For these reasons and the secure and sensitive nature of being a critical infrastructure, the Commission staff recommends the continued use of the FireEye service under ITSavvy and authorize the General Manager to execute a twelve-month agreement with IT Savvy LLC in the amount of \$123,293.64.

Recommended Motion:

Motion to approve Resolution No. R-16-23.

RE: Decennial Committees on Local Government Efficiency Act, 50 ILCS 70/1 *et seq.*

Dear Elected Official,

On June 10, 2022, Governor Pritzker signed the Decennial Committee on Local Government Efficiency Act, Public Act 102-1088, into law. On February 10, 2023, Public Act 102-1136 amended the original legislation to further define the requirements of this act. These new acts require all Illinois Local Governmental units that levy a tax (outside of municipalities and counties) to constitute a committee to study and report on local government efficiency. This letter is to assist you and your governmental unit in completing the requirements outlined in these new Public Acts. Additionally, I have enclosed a copy of the new state statute for your convenience.

The Act requires Governmental Units to complete the four following tasks:

1. Constitute a committee to review local efficiencies (ie. ordinances, procurement methods, operations, etc.) and hold their first community meeting by June 10, 2023.
 - a. The committee is composed of the president or chief elected (or appointed) official, all elected/appointed members of the governing board, at least two residents, and all other officers of the governmental unit. Additional members can be appointed if desired.
2. The committee must meet at least three times.
 - a. After each meeting, the committee must conduct a survey of residents who attended asking for input on the matters discussed at the meeting. This can be completed by sending out an e-mail survey to those in attendance who provided an e-mail address.
 - b. Note that the act requires a minimum of three meetings, committees can meet as many times as they want. Meetings must also be open to the public and abide by the Open Meetings Act.
3. Write a report with recommendations (if any) on efficiencies and increased accountability.
 - a. This report must summarize its work and findings which should include recommendations for increased accountability and efficiency. This includes, but is not limited to, the study of the governmental unit's governing statutes, ordinances, rules, procedures, powers, jurisdiction, shared services, intergovernmental agreements, and interrelationships with other governmental units and the State, data collection, and analysis as necessary to prepare a report that has recommendations regarding efficiencies. The report must be finalized and submitted within 18 months of the creation of this committee.

4. Submit the written report to the County in which the governmental unit is located.
 - a. Please submit this report to the County via the *Local Government Efficiency Act Report Submission Portal*. This portal can be accessed by visiting https://dupagecounty-ktgfp.formstack.com/forms/efficiency_act_report. The County will maintain a page on the website where all reports can be viewed by the residents of the county.

Information maintained by the Legislative Reference Bureau

Updating the database of the Illinois Compiled Statutes (ILCS) is an ongoing process. Recent laws may not yet be included in the ILCS database, but they are found on this site as [Public Acts](#) soon after they become law. For information concerning the relationship between statutes and Public Acts, refer to the [Guide](#).

Because the statute database is maintained primarily for legislative drafting purposes, statutory changes are sometimes included in the statute database before they take effect. If the source note at the end of a Section of the statutes includes a Public Act that has not yet taken effect, the version of the law that is currently in effect may have already been removed from the database and you should refer to that Public Act to see the changes made to the current law.
